Why do you consider important the establishment of IP management in SMEs?

What are the benefits?

“Efficient management of IP is key to support the process of innovation, is essential for organizations' growth and protection, and is their engine for competitiveness.”*

*ISO 56005: Innovation management
Tools and methods for intellectual property management*

the European Union

OBJECTIVES

*Under this unit learner will be able to **define** and **review Intellectual Property Management** and also to **develop** and **assess Intellectual Property Strategy** subject to ISO 56005.*

Intellectual Property Management

*“Intellectual property is an **integral part** of any **business strategy**.”*

*Knowing how to manage your IP effectively can help you promote your business or **maximise the impact** of your **research & innovation project**.”*

Co-funded by
the European Union

*“Intellectual property has become a **key building block for the commercial success** and **competitiveness** of many companies – and especially for small and medium-sized enterprises (SMEs) – as modern economies are increasingly driven by knowledge-based services and products.*

*It is thus fundamental for **SMEs to be aware** of the value of their intangible assets and to set up informed strategies to capture, manage, protect and potentially enforce their IP. ”*
